

Summary 11 (level 2)

In **Workbooks**, read the task and the new words.

Then read the questionnaire and answer the questions:

1. What would you do? *I would...*
2. How do you think most Americans answered these questions? *Most Americans would...*

NB: graphic video is a term used to describe a video which shows everything (violence, porn) and has a negative meaning

Have you ever been in any of these situations? What did you do?

Second Conditional

Look at the questions in the previous task again. Они о ситуации в прошлом? Они о реальной или воображаемой ситуации? В какой форме стоит глагол после "if"? Как переводится слово "would"?

Write down the rules

Name	Second Conditional Условные предложения второго типа
Rule	<p>We use the Second Conditional to talk about an unreal present or future situation and its result (используем, когда говорим о нереальной ситуации в настоящем или будущем и ее результате).</p> <p># If I had a job, I would rent my own flat. (= I don't have a job, I'm imagining it.)</p> <p>Обратите внимание на слово unreal – его можно даже подчеркнуть. Переведите предложение на русский - Если бы у меня была работа, я бы снял квартиру. (но у меня нет работы, я воображаю ситуацию).</p>
Structure	<p>1. If + Past Simple + would + V</p> <p>NB1: We use Past Simple, but the meaning is not past (несмотря на то, что мы используем Past Simple, мы не говорим о прошлом).</p> <p># Если бы у меня были деньги (сейчас), я бы поехал на Кубу.</p> <p>If I had money (now), I would take a trip to Cuba.</p> <p>NB2: We can use "was" or "were" with I, he, and she after "if".</p> <p>Переводим и записываем предложения:</p> <p>Если бы я был богат, я бы много путешествовал.</p> <p># If I was/were rich, I would travel a lot.</p> <p>Если бы твоя сестра была здесь, она бы знала что делать.</p> <p># If your sister was/were here, she would know what to do.</p>

	<p>NB3: We can use "was" or "were" with the structure "If I was/were you" (на твоём месте).</p> <p>Переводим и записываем:</p> <p># If I was/were you, I would buy a new computer.</p> <p>2. You can also use some modal verbs in the result sentence.</p> <div style="display: flex; align-items: center; justify-content: center; gap: 10px;"> <div style="border: 2px solid green; border-radius: 10px; padding: 5px 15px;">If + Past Simple</div> <div style="font-size: 2em;">+</div> <div style="border: 2px solid blue; border-radius: 10px; padding: 5px 15px;">could/might + V</div> </div> <p>Переводим и записываем предложения:</p> <p>Если бы у него был мой номер, он бы мог позвонить мне</p> <p># If he had my number, he could call me.</p> <p>Если бы я выиграл в лотерее, возможно, я бы отдал все деньги своей семье.</p> <p># If I won the lottery, I might give all the money to my family.</p>
Special Feature	<p>would = 'd</p> <p># If I had a job, I'd (I would) rent my own flat.</p> <p>Полную форму would обычно не используют в разговорной речи.</p>

First or Second conditional?

If I have time, I'll help you. (this is a real situation, it's possible that I'll have time – 1 Conditional)

If I had time, I'd help you. (this is a hypothetical/imaginary situation, I don't actually have time - 2 Conditional)

Маленькое задание. В какой ситуации реальное условие, а в какой – нет?

Ситуация 1. "Если я полечу жить в Антарктиду на лето, я возьму тебя с собой, дорогая. И если ты прихватишь корм для пингвинов, мы будем подкармливать их на рассвете".

Ситуация 2. "Если бы ты купил помидоров к ужину, я бы приготовила «салат тракториста».

Казалось бы, помидоры к ужину купить гораздо реальнее, чем поехать в Антарктиду подкармливать пингвинов. Но ответ такой: в первой ситуации – реальное условие. Потому что нет слова "Бы". А во второй ситуации – нереальное условие. Потому что есть слово "Бы".

Итак, предложения с нереальным условием – это те, в которых есть фраза **"ЕСЛИ БЫ"**.

Если условие нереальное (с "бы") и ситуация относится к настоящему или будущему времени, то это – Second conditional.

Берем красный маркер и пишем рядом с правилами крупно слово Бы
